work experience

Ball State Digital Corps

designer, 2012–2014

I design websites, web and native mobile apps, and other interactive things with a student team of designers, develpers, and audio/video folk. I've worked on projects for Ball State's recreation center and Integrated Learning Institute, as well as for the Indiana state government.

ZURB

design intern, 2013

I interned at an interaction design firm in Campbell, CA, where I helped redesign ZURB Playground, wrote a jQuery plugin called Wrangle, and contributed visual design and HTML/CSS for various client projects.

Indiana Broadcast Pioneers

webmaster, 2011–2012

I designed and built a new website, using Drupal, for a historical society in Indiana, including a video library and broadcasting hall of fame.

Indiana Center for Advanced Medicine

webmaster, 2010–2011

I maintained the content for a small cancer clinic in Indianapolis, adding and updating text, imagery, and video as needed.

Computer Renaissance Indianapolis

technician + webmaster, 2010–2011

I sold computers, fixed people's messed up computers, and designed and maintained the website for a small used computer and computer repair business.

education

Ball State University

Bachelor of Arts,
Telecommunications
Minor in Japanese
